> THE circulation of Japanese silver coins in Yokohama has lately become yery difficult-The principal difficulty is with silver gen coins, which are not accepted by the exchangers unless they are absolutely without blemish, and their quality has been care ally examined. Even at the Specie Bank and the Second National Bank none are received which have the slightest blemish or the quality of which is in any degree uncertain. This causes much inconvenience to the merchants. Mexican dollars, even if not perfeet are current without trouble. The shroffing of coins is one of the nuisances of the East, for which the Chinese are garticularly to blame. It is presumably they who are the counterfeiters, mutilators, and defacers of the silver coinage, whather Mexicans or silver yen, and then, owing to these malpractices, they are employed as shroffs, and they take care to keep the rame alive and make a profit, first by illicia and fraudulent practices, and next by extrasting salaries for sorting the coins. THE CHINA REVIEW.

MIHE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter. The subscription is fixed at \$6.50 postage

paid, per annum, payable by non-residents Government House, North of Public in Hongkong half-yearly in advance. The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the " Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Porare made to present a resumé in each number of the contents of the most recent

attention is also paid to the Review department. Notes and Replies are classified togother as "Notes" (head references being though asking for information, furnish new ' or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two easays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi monthly, reportery of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Leview. Address China Review, Hongkong. - Northern

Christian Advocate (U.S.) Trubner's Oriental Record contains the lollowing notice of the China Review :-- "This is the title of a publication, the first number of which has lately reached us from Hougkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. Thepresent publication, judging by the number now before us, is intended to ! occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. In a paper on Dr. Legge's She hing, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent aummary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Keview may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.
